

PROJECT OVERVIEW

The What?

A psychosocial community organisation aiming to create a conducive environment for young people to engage in training, gain inspiration, and be provided with the tools necessary for idea development with the goal of producing youth-in (meaning youth-induced, youth inclusive, and youth-interdependent) businesses and projects.

Founded by Mr. Damon Osei, the Youth-In Business Community aims to address the issue of the prejudice and the resultant lack of access to support that exists antagonistic to the multitudes of young people who want to take up businesses and projects in addition to their education or as a means of sustenance. This lack of access is due to our cultural biases which are now resulting in an alarming rise in youth involvement with criminal activities such as internet fraud, ritualistic killings, Ponzi schemes, and so much more, not for wealth, but in most cases simply for financial stability.

The Mandate

Vision Statement	Mission Statement
We envision a youth-focused economy wherein youth from all walks of life have access to this organization and the information, tools, and network necessary to create opportunities for themselves.	Our mission is to build a community of like-minded young, innovative, intellectuals, entrepreneurs, and creatives. We aim to create a conducive environment for prodigious ideas to erupt and develop into youth-induced, youth-inclusive, and youth-interdependent businesses and projects.

PROJECT OVERVIEW

Methodology

So far the Y.I.B. has operated using three-part modus operandi:

1. Events

The variety of programs, conferences, trade shows, and competitions that will be later outlined intend to provide members with access to opportunities, guidance, resources, information, and mentors. These events will be graced with the presence of our handpicked array of seasoned professionals and corporate sponsors.

2. One-on-One Sessions

Whether on zoom or in person, our founder sits with community members whose ideas, existing businesses, current projects and behaviour stand out. These sessions seek to assist with planning out their ideas, predicting possible obstacles and redundancies to pre-purpose resource solutions, and enabling them to execute or improve on their projects and businesses.

3. Networking & Resource Person Provision

In addition to the founder-member consultancy, we aim to introduce community members to one another to connect idea developers with skilled members who have the prerequisite abilities to enable execution. Thereafter we will provide this team with the necessary professionals or corporations to bring such ideas to true fruition with the support, investment, guidance or employment they may provide.

COMMUNITY EVENTS & PROGRAMS

Y.I.B Conference 2019

09/07/2019

The first ever event held by the community, hosting over 200+ members of Ghana's youth. The Y.I.B Conference 2019, our maiden training and networking conference with the theme "Starting Early", doubled as the organisation's launch in July. The goal was to inspire the youth to get up and start something, anything, that would employ their varying skillset in the creation of positive, impactful and possibly profitable projects, charities and businesses as opposed to getting involved in the widespread criminal activities engaged in by the youth, most especially internet fraud.

Hosted with speakers such as Mr. Andrew Achampong-Kyei (Glico - Managing Director), two Ghanaian "Forbes 30under30" winners; Mr. Charles Antipem (Dext. Tech.), and Mr. John Armah (Orios Group Ghana), as well as female titans of industry; Mrs. Gillian Hammah (Databank, Marketing Director), Ms. Leticia Browne (Intelligent Capital Group), and Hon. Dr. Zanetor Agyeman-Rawlins (M.P Klottey-Korle). These titans truly came with a host of knowledge, experience and opportunities to share with our eager youth.

Ghana Must Go Help Project (GMGH 2019)

29/12/2019

In 1983, a presidential executive order was passed to deport the 'outsiders' including close to 1,000,000 Ghanaians from Nigeria during a change in economic climate. These Ghanaians used a peculiar type of large checkered bags to move their belongings. These were thereafter termed by the Nigerians as "GHANA MUST GO" bags. It is upon chancing on this recount and finding out the close relation of this event to his personal family history that the Y.I.B Founder, Mr. Damon Osei set out to repurpose these bags, that were once a symbol of shame, to uplift the name of our motherland as greatly improved nation, yet still growing, with the capacity to sustain and take care of our own less fortunate without overtly leeching on the resources of our fellow man.

The annual project takes a group or community with specific needs and brings together Y.I.B community members, friends, family and our fellow Ghanaians as we use these newly named GMGH bags and our resources to help provide and present solutions to the community.

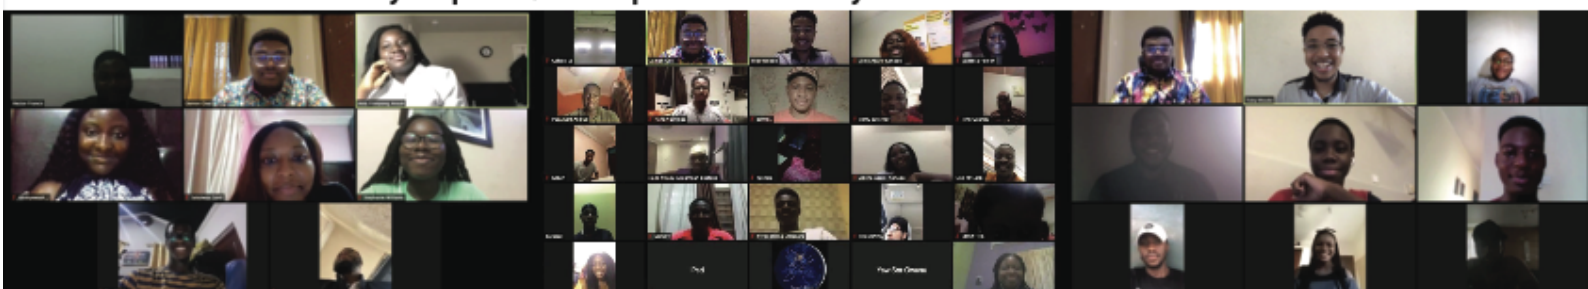

2019 Communities: Heart of The Father Orphanage (Pram Pram) & New Life Orphanage (Nungua)

Y.I.B VIRTUAL SUMMIT 2020

18- 20/05/2020

The Y.I.B Virtual Summit in 2020 initially started as our answer to the trying times we found ourselves in. As Damon Osei convened with the team of volunteers for that event it was the team's ingenuity and decisiveness that was employed in devising a way by which to host our second installment of the annual Y.I.B Conference in the peculiar times of the COVID-19 pandemic. In hopes of continuing to train, empower, and inspire our community we decided to overcome the current meeting barriers set to stop large scale events by hosting the conference virtually. In 2019 we met with the theme 'Starting Early', thus, to appropriately follow this, we met with a more specific goal in 2020, one adequately encapsulated in the theme; "Starting A Business". The goal was to provide the youth with the practical tools, answers, and knowledge of what to expect on their journey to financial self-reliance. In the launching and marketing phase of this event we came to realize an entirely different demographic of sorts was being drawn in. Ghanaian youth both in-country and in the diaspora were reaching out to get involved not only for the skills but the outstanding networking opportunity with like-minded youth and the questions, discussions and answer sessions held with Damon after each session. Due to the unexpected number of interested parties, the team decided to turn the conference into an event of its own the Y.I.B Virtual Summit [2020], which is intended to be an annual event. This event had prerecorded presentations international speakers like Mrs. Jatali Bellanton, Founder of Kids Who Bank, an investor and financial literacy coach, as well as Mr. Nick Nanakos, the young C.E.O of Truckbox, having raised upwards of 280,000 dollars on SeedInvest alone, among many other Ghanaian industry experts, entrepreneurs and youth leaders.

Y.I.B. G.A.P (GOD ANSWERS PRAYER) SUMMIT 2020

18/12/2020

The first ever Y.I.B. God Answers Prayer (G.A.P) Summit, our smallest-scale event yet, as it was held post COVID-19 event ban, with close to 100 people joining over live streaming on various small zoom rooms and our instagram live stream. Faith is a big part of our founder's life and in his own words; the main motivation for his ability to bring to fruition that which he has undertaken so far. Therefore, as a community it was imperative that we imbue the respect and inclusion of faith, prayer, and spiritual growth, in our members whether for their business, charity, project, or in their journey towards gaining a high-income skill. Moreover we hoped to inspire the youth through faith and prayer for the restoration of African ingenuity and innovation, as well as the realization of their individual roles in the making of this new Africa. In addition we aimed to reignite the God factor in community members and beneficiaries to include some pillars of the faith such as giving, kindness, personal responsibility for one another and for our nation in their exploits.

Ghana Must Go Help Project (GMGH 2020)

29/12/2020

Leading up to this reiteration of the GMGH project, our founder and his family had worked with The Heart of the Father Orphanage in Pram Pram for about 3 years prior to the GMGH launch in 2019.

Since then the following year was spent keeping in contact with management of the children's home and supporting where we could, and more importantly the time was spent exposing and introducing other teams, families, smaller charities and organisations to the secluded yet needy children's home.

Thereafter we hosted the climax donation in December and had our founder speak to the children about picking up a role, whether in the home, starting a business, and inspiring them to start something of their own, even going as far as to invest in a woman with a child to begin sewing and soap production.

Ghana Must Go Help Project (GMGH 2021)

26/09/2021

The now-annual project takes a group or community with specific needs and brings together our fellow Ghanaians as we use these GMGH bags and our resources to help provide and present solutions to the community.

This Year 2021, we took on the town of Aveyime, in the North Tongu Constituency. The goal was to provide clothing, food items, tools and a host of other necessities, we went as far as raising about GHC 15,000 towards the donation in under two weeks as well as over 60 bags of GMGH donations and the equivalent of another 25 bags in items bought to donate including, but not limited to; washing soap, cloth, bathing soap, slippers, toothpaste, deodorant, toothbrushes, water, sweets, shoes, sanitary pads, face masks, food items, soft drinks, and juice boxes. Special thanks to Rev. Mawuli Okudzeto, and Hon. Okudzeto-Ablakwa

Ghana Must Go Help Project (GMGH 2022)

27/02/2022

This iteration of the Y.I.Bs annual corporate social responsibility project was dubbed the Month of Love Project due to its occurrence in February. This year's team for the Ghana Must Go Help Foundation, which acts as the charitable branch of the Youth-In Business organization; in partnership with DNT Ghana; Purple Rain Decor and the Y3 Mi Yiefuo Foundation (YMF Ghana) in Germany, came together to commemorate YIB's first C.S.R project in 2019 and the founding family's preexisting relationship with the The Heart of The Father and Shekinah Home in Old Ningo, Prampram for many years prior.

We donated over 4000 cedis in cash to the orphanages, and to specific kids towards school fees, course materials, daily upkeep and to enable a particular young woman take up an elective which she otherwise could not have afforded to partake in, as well as 20+ GMGH BAGS of clothing, shoes, bags and books, in addition to, 'This Way' Chocolate Drink, water, drinks, sweets, snacks, soap, toothpaste and toothbrushes, drinks, rice, sugar, oil, sanitary pads, amongst many other food and sanitation items.

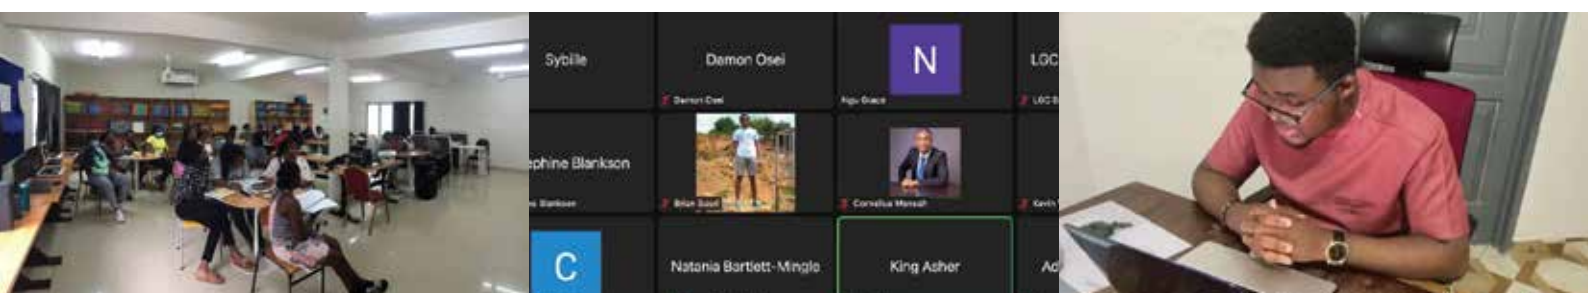

Y.I.B Virtual Summit 2022

11/06/2022

This Y.I.B, for the year 2022 took up the theme is "Ignite", with respect to igniting youth involvement in every field of endeavour available to us and in the lifting up, training and support of our fellow youth. In this spirit we 'reignited' the Y.I.B Virtual Summit. An online open forum via zoom that hosts a number of key youth-focused speakers as we provide practical information with regard to tools, resources, software, and methodologies that we have found beneficial to each speaker's area of practice.

This year we hosted a number of young speakers, thriving in their fields such as 'Sharkboy' one of the nation's premier 'Youtubers' and influencers, Mr. Jadyne Daniels, a young yet wildly successful real estate developer, Ms. Angela Bentum (P.R.O) from FTF Ghana, a viral thriving child care and community service initiative, 'Modest Crypto' a knowledgeable young figure in the field of retail "Cryptocurrency and Forex" investment and trading, Mr Reginald Boateng, an MTN Pulse Business Ambassador & Co-Founder of his own processing company, Podash, Ms. Akua Opoku, a young entrepreneur, with a growing business in the jewelry space (Two Sets) as well as curated personal shopping (Tee_Shops), she is also an executive member of the Y.I.B.

The program in partnership with the SRCs of Heritage Christian College, Marshall's University and Ghana School of Survey & Mapping. with only 80 slots available we saw attendance of over 60+ youth, and an entire cohort from a partner school, Legacy Girls College, who also got the chance to engage, and get tailored advice from the speakers towards their own ideas and businesses.

Y.I.B IGNITE CONFERENCE 2022

19/08/2022

The Youth-In Business Community Launched The Ignite Conference 2022! As always we created a platform for young people to come and network with like-minded youth and listen to titans of various industries share practical opportunities for the Ghanaian youth. Uniquely crafted with a the specific goal of igniting youth involvement in industry, innovation, and business.

Over 500 young people gathered to listen to a long list of well seasoned titans of industry including the likes of Her Excellency Anne Sophie Avé (French Ambassador to Ghana), Mrs. Gillian Hammah, Head of Marketing at Databank, Mr. Andrew Achampong-Kyei, Managing Director of Glico Insurance ,Yaw Sakyi, Media Personality & Founder of RITE Sports, Kofi Genfi, Forbes 30 Under 30 Winner & Co-founder of Mazzuma & Utopia Technologies, among many others.

These veterans graced the conference to speak on areas in which their expertise is widely sought after and respected, in order to ignite youth interest and guide them to effectively involve themselves in industry to have notable effects on industry and business within the nation and continent at large.

GMGH A Journey Worth Running (Prampram)

01/05/2023

After a hiatus from travel due in majority to the events of the year prior, and internal restructuring, the entire Y.I.B community came together for a project that was marked with an occurrence that has imprinted this visit to "our second home" the Heart of The Father Orphanage in Pram Pram, in the hearts and minds of all who attended forever as it brought our founder to tears.

For over 8 years even before the launch of the project our founder and his family have maintained a loving relationship with the children from the Heart of the Father Orphanage helping many with clothing, food, school fees, and items needed for work or study. This year however they gave us a gift. The management invited a young man to stand before the entire auditorium and host of Y.I.B members and patrons, to give a speech about the impact the project made on him, only to remind our founder that he has known and cared for him since he was 2 years old and that baby, is now the 10 year old young man, standing up on stage addressing him today!

We went to the Hearts of A Father Home with open hearts and minds, to make a difference but they made the difference in us through memories that will last a lifetime.

SPONSORED & PARTNERED PROJECTS

(HUGS FOUNDATION) (Martey Tsuru Project)

25/11/2019 - 20/02/2020

HUGS foundation was a non profit group founded in 2019. Their aim was to identify underprivileged groups in their community and offer ways to make their circumstances better. In September of 2019 the team came across The Presbyterian School of Ghana - Martey Tsuru. The school was in a dire state with problems such as poor infrastructure and inadequate furniture for students only to mention a few. Therefore in need of guidance and financial support, they sought out Mr. Damon Osei, after a presentation he made for GMGH at the East Airport International School, his junior high school, that same year. The Y.I.B community partnered with the foundation and as they requested help so as to raise funds to fix the dilapidated furniture in the classrooms. The Y.I.B provided financial aid, fundraising guidance, branding and graphic design through our founder's company, as well as artisans in the fields of carpentry, electrical engineering and welding to work not only on the dilapidated furniture but also the security of the doors, the lack of electrical connection in one school block and poor lighting, thereby increasing the scope of aid provided. Due to the guidance and inspiration of the Y.I.B community, the all-female team strived for sustainability through a "One Ghana Cedi a day" initiative whereby students of the East Airport International School were encouraged to contribute a cedi a day to raise funds for the cause thereafter.

The Samaritan Project

23/05/2020

The Samaritan Project was held in conjunction with the Y.I.B community and directly sponsored by the Y.I.B Virtual Summit 2020 revenue held prior.

The coronavirus pandemic displayed the deep inequalities that exist in our society. While some have rooms full of sanitizers, masks, toilet paper and hand washing soaps, others have nothing.

The Samaritan project was designed to raise GHC 10,000.00 to provide 100 households and families in the La-Tseaddo area with essential supplies in these times such as: hand sanitizers, reusable masks and food packages including rice, oil, tinned fish, and tomatoes, amongst others.

The packaged food and necessary financial aid were offered up to members of the community suffering from the indirect economical effects of Covid-19 and the quarantine.

IGNITE YOUTH GHANA (Higher Heights Entrepreneurship Conference)

19/12/2020

Ignite Youth Ghana is a youth centered organization which focuses on "Facilitating young people's involvement in National and Global action." For two years now Ignite Youth Ghana(IY-G) has been in the business of providing mentorship to young people through programs such as workshops, forums, conferences and institutional visits. One of the interventions of IY-G is the Higher Heights Conference organized annually in December to provide young people with entrepreneurial skills and mentorship to enhance their creativity. The 2020 edition of the Higher Heights Conference was held in collaboration with Youth In Business at the University of Ghana - Law Auditorium under the theme "Planning The Journey: Entrepreneurship Edition" with seasoned speakers in the field of entrepreneurship. The Y.I.B Community's founder, Mr. Damon Osei, supported by being part of the speakers who spoke on the topic "Branding Your Business".

With the help of Y.I.B, the event had 174 young people who participated at the conference and about half of them registered as invitees or members of the Y.I.B Community, or through our advertisement and branding. YIB's brand resulted in the attention of some media stations who partnered with us at the conference (UTV and Homebase TV). The Youth In Business founder Mr. Damon Osei sponsored the renting of the auditorium and sponsored the attendees with bottled water. YIB continue to support IY-G in diverse ways including providing us with speakers at our workshops and also in finances. Mr. Damon Osei supported IY-G's two year anniversary as a guest speaker and he spoke about YIB continuous relationship with IY-G. Through our collaborations last year IY-G has the exposure now and is able to have workshops with governmental institutions, including a workshop held in April 2021 in collaboration with Ghana Tourism Authority.

Y3 MI YI3 FUO (Y.M.F) FOUNDATION LAUNCH (SCHOLARSHIP SCHEME)

04/10/2021

The YMF Foundation is a non-profit organization which primarily focuses on education. Their first project is the YMF Scholarship Scheme which aims to bridge the educational gap in Ghana by providing scholarships to academically excellent young girls in Junior High School who are in need of financial support. During its launch in October 2021, the foundation reached out to the Y.I.B community for 'boots-on-the-ground', as well as guidance and help to source materials. The Y.I.B Community assisted with branding and graphic design as well as general organisatory guidance during the launching, first fundraising phase, and planning towards overseas fundraising. In 2022 the YMF Foundation seeks to partner with the Youth-In Business Community once again to provide soft skill training for their first batch of scholarship holders.

OXZY (YOUNG Entrepreneurs Summit 2021)

20/12/2021

OXZY is an organisation that focuses on building sustainable communities, promoting economic growth and creating a space for innovative creativity. The organization is spearheaded by young innovators who want to make meaningful change. With the mission at Oxzy being to bring positive change in communities and empower young entrepreneurs to join in creating a more sustainable world for posterity. Launching in 2021 this organisation reached out to the Y.I.B Organisation with the intent to launch their organisation with their first ever conference at the Legon Law Auditorium titled “The Young Entrepreneurs Summit”(Y.E.S). The event intended to ignite youth participation in entrepreneurship and social impact while fostering collaboration among youth to foster continental development. The inaugural edition of The Y.E.S 2021 was thus held in partnership with The Youth Sustainable Development Conference from Nigeria as well as, our organisation Youth-In Business in Ghana under the theme “ Strengthening African Youth Participation In Entrepreneurship” with inspiring and effectual young entrepreneurs composing panels on entrepreneurship in different industries such as Social Entrepreneurship, Technology & Innovation, Fashion Entrepreneurship, and Creative Entrepreneurship. The Y.I.B supported by providing on-site branding, marketing, and attendee aquisition and event-day media, sound and photography support as well as, and our founder, Mr. Damon Osei, acting as Chairperson for the event and emphatically speaking on true entrepreneurship, team building and networking. We look forward to a continued and mutually beneficial partnership for years to come.

Y3 Mi Yiefuo Foundation (YMF) X Youth-In Business Workshop

07/03/2022

YMF Foundation, a Ghanaian-German NGO, that runs a scholarship scheme for young girls in junior high school. As part of this scholarship scheme, the Y.M.F intended to offer beneficiaries the chance to engage in informative workshops and extracurricular activities so as to create an intellectually stimulating environment beyond the confines of their schools and family life.

Due to their absence in Ghana and our organisation’s partnership (since their inception), we were called upon to undertake all responsibilities and tasks associated with the successful execution of their first “Independent Women’s Day Workshop”. focused on enabling social mobility, increase their drive and desire to achieve more, and empower them with the skills to do so.

This workshop opened their minds to science, self reflection, presentation and public speaking skills, and more through our self-development coaching, public speaking & skill training program provided by our founder, “Mr. Damon Osei”, as well as an educative and interactive session on reproductive health presented by the youngest graduating doctor in Ghana, “Dr. Erica Ntiamoah”. Moreover, a host of young Y.I.B members and executives weere made available at the workshop to inspire the girls and enable them network to further gain exposure and confidence.

YMF x YIB Summer Workshop

10/09/2022

On the 10th of September 2022, the Y.M.F x Y.I.B partnership brought about the foundations first ever summer camp. All 12 beneficiaries of the scholarship scheme from across the country in areas such as Prampram, Akunni and Gomoa were brought together in the main city of Accra, in East Legon at the African Institute of Management Sciences, where they were treated to breakfast before the workshop began.

For the newest cohort of scholarship recipients, we spent the day creating vision boards and discussing the importance of not just dreaming big but researching and exposing yourself to the realistic pathways by which they can achieve these visions irrespective of their starting points in life. Whilst this occurred the 2021 cohort worked on self-esteem and were trained in the nuances of presenting a persuasive argument in the form of a debate.

In the afternoon, we visited some of the most famous national landmarks and discussed their history, these include the Independence Square, Independence Arch, and the Accra Sports Stadium. The day ended with refreshments at Papaye Osu.

REVIVAL FEAST 2022 X GMGH CLOTHES DRIVE

26/12/22

This iteration of the Y.I.Bs annual corporate social responsibility project was dubbed the GHANA MUST GO CLOTHES DRIVE. This iteration occurred in partnership with the Revival feast, an event held by a Christian religious organisation that brings together homeless and displaced persons, including 'street children and teens', injured or differently abled people, as well as widows and the aged in the Christmas time to celebrate the birth of Christ and be educated on the importance of doing good and having faith in a higher power.

This year's team for the Ghana Must Go Help Foundation, which acts as the charitable branch of the Youth-In Business organization, in partnership with the Revival Feast & Anita Owusu Evangelistic Ministries, set up a clothes drive that resulted in an all-for-free (no cost) clothes stand at the feast. We received donations that we packaged and used to set up the stand, allowing the over 200 attendees to pick and take home, clothes, shoes, bags, and other clothing items suited to them in size and style, not only providing clothing but the experience of Christmas clothes shopping and gift giving without the price barrier.

YMF x YIB Independent Woman's Day Workshop

01/04/2023

On the 1st of April 2023, we hosted and run the second edition of the german foundation, YMF Ghana's Independent Women's Workshop. This year the six BECE candidates were assisted by the a team from the education technology company Qknow Edtech, to master their BECE Prep kit software so they can employ it via devices given to them through the foundation to use in their respective town's and villages. Qknow Edtech allowed us to provide our girls the best preparation possible for their upcoming exams in August.

Apart from that we had interesting talks about mental health and abuse by the amazing Dr. Bubuo whom, we were honoured to work with. Lastly, after lunch we brought all our girls together for a final session on reproductive health with our new beneficiaries and it was an amazing session led by Dr. EvaVerra Tetteyfiio, a practicing physician and alumnus of our founder's university, Accra College of Medicine. who currently doubles as our first mentor for a beneficiary who is also a teenage mum.

YMF x YIB Graduation

09/09/2023

On the 9th of September 2023, the Y.M.F x Y.I.B partnership brought about the foundations first ever graduation day celebration. Over 20 beneficiaries of the scholarship scheme from across the country in areas such as Prampram, Akunni and Gomoa were brought together in the main city of Accra, in East Legon at the African Institute of Management Sciences, where they were treated to breakfast before the celebration begun. This was not devoid on learning as they were engaged in various workshops including " Effective Studying", by Ms. Dzifianu (Y.I.B Head of Marketing 2023), as well as "Confidence Training", and more.

For the our first cohort of BECE graduates the entire team and group celebrated them along with their fellow girls to inspire them for what lies ahead. We arranged a sponsorship from Silver-bird Cinema's to bring these girls some of whom where coming to the cinema for the first time ever, after which a suprise graduation dinner and party was hosted at the D'elish Restaurant in East Legon for them to drink, eat, party, with curated outfits for each young lady as they would have for any proper graduation as this was, with speeches, prizes, and all the bells and whistles expected.
